## Hervey Bay 100

From a very wet and miserable Saturday to a perfect sea of blue for Sunday's race, the Hervey Bay 100 lived up to its "Suffer in Paradise" catch phrase.

The 2km swim was in a pool-like bay before 80km of biking in 20km loops on a smooth surface and the real heat kicked in during the 18km run.

A combination of the multi-loop design and small-town feel creates a great atmosphere for racing. There was support from everywhere; crowds of people or fellow competitors.

Noosa locals were out in force with **Callum Millward** (we'll claim him even though he is from New Zealand) and **Meredith Hill** claiming line honours in the open male and female races.

Well done to all who competed and made the event a successful one.

## Club Sprint Event

The Club Sprint Distance event held last weekend was a family affair with father and son, husband and wife, and Mum's and Dad's training together.

It is great to see families training together, having fun and keeping healthy! If you know of any friends or family members who would like to get involved, don't hesitate to pass on our details.

Last, but definitely not least – a big thanks to all our volunteers. Every event requires some helpers so we're ever grateful. If you didn't get chance to assist in 2017 then put your hand up in 2018 ☺

\* See you on the December 17<sup>th</sup> for some festive cheer!
